PROFILE

Experience in analysis, design, testing and implementing Object Oriented Programming Concepts (OOPS), Service Oriented Architecture (SOA) based Applications, and N-tier applications. Experience in C# 4.0, ASP.NET , ASP.MVC, .NET Core, Web API, SQL Server. Ability to perform at a high level, meet deadlines, adaptable to ever changing priorities. Passion for coding.

PROFESSIONAL EXPERIENCE

DEVFINITY LLC., *Senior Software Engineer* Oct 2020 – Present

- Designed and developed scalable, high-performance web applications using **.NET Core and Angular**, supporting multi-tenant architecture.
- Architected and maintained cloud-native solutions using **Azure App Services, Azure Functions, and Azure Storage**.
- Implemented **Azure Cognitive Search** to enable advanced and efficient data querying.
- Developed and maintained **RESTful APIs** for seamless integration with internal and third-party systems.
- Built a **real-time communication system using SignalR**, improving user interaction and responsiveness.
- Collaborated with cross-functional teams to define system architecture and technical solutions.
- Led code reviews, refactored code, and enforced best practices to improve code quality and maintainability.
- Participated in requirement analysis and translated business needs into scalable technical solutions.
- Played a key role in designing and managing a **multi-tenant SaaS architecture**.

INSIGHT WORKSHOP, *Software Engineer* May 2018 – Sep 2020

- Developed enterprise applications using **.NET Core (2.1–3.x) and Angular**.
- Deployed and managed applications on **Microsoft Azure**, ensuring high availability and performance.
- Contributed to system design and architectural decisions in collaboration with senior developers.
- Participated in requirement analysis, development, debugging, and performance optimization.
- Refactored existing modules to enhance scalability and maintainability.
- Implemented **unit testing** to ensure application reliability and quality.

GAPSCO, *ASP.NET Developer* Jun 2017 – Mar 2018

- Involved in full software development lifecycle: analysis, development, testing, and support.
- Developed web applications using **.NET MVC and SQL Server**.
- Wrote complex queries and stored procedures using **T-SQL** for efficient data handling.
- Collaborated with internal teams to design and improve application architecture.
- Enhanced existing systems by fixing bugs and improving performance.

YOUNG MINDS CREATION, *Jr. ASP.NET Developer* Jan 2017 – Jun 2017

- Developed and maintained web applications using **.NET MVC and SQL Server**.
- Assisted in debugging, testing, and system configuration.
- Conducted **system testing** to ensure application stability.

SKILLS

C#, ASP.NET, Azure Services, SQL Server, Unit Testing, Angular, HTML, CSS, Git, SignalR, Multi-tenant Architecture

EDUCATION

Himalaya College of Engineering, *Bachelor* Jun 2013 – Jul 2017
